Award for Complete
solution

CORPORATE PROFILE

Since its formation in 1961 Trimo has established itself as one of Europe's leading companies developing original and complete building envelope solutions (facades and roofs), steel constructions and modular space solutions.

The company's excellent reputation for **innovation, quality and customer support** continues to impress as new markets and new opportunities are explored.

Expert knowledge, sustainability, reliability and a focus on the future are all basic components that have taken Trimo around the world. Today Trimo sells its products and services under its **own brand** across more than 60 countries worldwide. Trimo has established a sales network in almost 30 countries and has production facilities in Slovenia and Serbia.

Portfolio of partners includes companies such as Airbus, London Heathrow Airport, Nestle, Philips, DHL, Porsche, McLaren, IKEA, Prologis, Mercedes Benz, Coca Cola and many others.

FACTS

Projects in more than **100 countries worldwide**

More than **50 million m²** of facades and roofs produced in **50+ years**

Around **500 employees**

Sales network in almost **30 countries**

In its sector Trimo is regarded not only as a **market leader**, but also as a **trend setter** and a highly **innovative company** as proven by its receipt of numerous international awards for innovation and cooperation on projects which have received the most respected prestigious architectural awards.

reddot design award
2010

bio20

Trimo is encouraging innovation and creativity within all of its target audiences: architects and designers through the **Trimo Architectural Awards**, young researches through the **Trimo Research Awards** and future architects and designers through the **Trimo Urban Crash competition**.

PRODUCT
RANGE

Over the years Trimo's portfolio of products has grown and developed in tune with market requirements and is considered now to present one of the most modern and comprehensive ranges of construction solutions.

METAL MODULAR FAÇADE SYSTEM QBISS ONE

Qbiss One is a design and technological breakthrough. It is a world-class engineered façade solution, which presents the ultimate combination of **aesthetics, design** and **function**.

Qbiss One delivers the greatest freedom of expression and offers designs of almost limitless possibilities. Without any doubt this is one of the **smoothest** and **flattest** façade envelopes in its class. The façade element itself is improved further with a patented unique rounded corner.

Qbiss One can be upgraded using the **ArtMe** façade surface treatment that allows literally unlimited shapes, patterns and visual effects to be expressed on the façade.

In addition to its exceptional design Qbiss One excels also in **fire safety, energy efficiency, air and water tightness** as well as being **98% recyclable** and with a **low CO₂ footprint**.

GLASS CURTAIN WALL SYSTEM Q-AIR

Q-Air is a unique unitized glass curtain wall system, which uses an **innovative, multi-chamber insulating core** that provides exceptional **energy savings** and **living comfort**.

High aesthetics and multiple design possibilities allow Q-Air to meet the widest architectural ideas and aspirations as it unifies **large, fully structural glazed interior and exterior surfaces**.

| Q-Air Exhibition pavilion, Slovenia

Q-Air manages solar heat gain, thermal and light transmittance so perfectly that a **full, panoramic transparent glazed area** is achievable whilst **fulfilling the building regulations** for thermal insulation and **total energy consumption** of the building.

To assure a complete building envelope solution for any building type or application, Q-Air is available in **transparent, translucent and opaque unit options** supported by either **polymer or aluminium extrusion profiles**.

| Show room and manufacturing plant, Spain

FIREPROOF ROOFS AND FACADES TRIMOTERM

Trimoterm is a range of environmentally friendly roofs and façades, which are ideal for constructions, where there are very high demands for **fire resistance** (up to 180 minutes), **sound reduction** and **thermal insulation**.

Trimoterm fire proof roof and façade panels with non-combustible mineral wool core are designed to be used for the prevention of **fire flashover** and/or the prevention of spreading of fire as well as **not producing** **deathly toxic smoke**.

Trimoterm panels are constructed from environmentally friendly materials, are **98% recyclable** and provide a **low CO₂ footprint** during the lifetime of the building.

TRIMO MODULAR SPACE SOLUTIONS

Trimo Modular Space Solutions offer exceptional **price/performance value** for complete camp assemblies, commercial offices, housing and accommodation, or for virtually any use as required.

Trimo modular units are made of **natural materials** and are almost **100% recyclable**. They deliver great environmental benefits (thermal insulation, sound reduction) to present an adaptable, versatile and sustainable modular solution.

Modular units can be shipped assembled or, to keep **transport cost to a minimum**, supplied flat-packed for on-site assembly with just the minimum of tools. Units can also be easily disassembled after use and transferred to a new location.

From an initial idea to the implementation, the **Trimo Customer Support team** helps clients throughout every phase of their architectural project.

PARTNERS PORTFOLIO

Trimo's clientele includes companies and brands of all sizes with a wide range of architectural and business development needs. Many are high-profile global brands with which it has developed close, longstanding and profitable relationships.

Trimo's portfolio of partners includes companies such as:

- Airbus,
- Heathrow Airport,
- Nestle,
- Philips,
- DHL,
- Porsche,
- McLaren,
- IKEA,
- Prologis,
- Mercedes,
- Coca Cola and many others.

CUSTOMER SUPPORT

The Customer Support Team is a partner clients can count on to provide comprehensive assistance throughout the entire duration of their project: from planning and purchasing to project management and creation, as well as the flawless implementation.

CERTIFICATES

For its products and solutions Trimo has received more than **1500 certificates in 23 countries worldwide**. Certificates include ISO 9001:2008, ISO 14001: 2004, OHSAS 18001: 2007, CE, TUV, LPCB, FM Approved, CWCT, EN, SC2, DIN, BS, UBC and many others.
