MEDICAL FACILITIES

MILITARY & GOVERNMENT ACCOMMODATION

When it comes to military and relief operations undertaken by both government and non-government organizations, Trimo offers camp solutions that demand a rugged, re-locatable building for use in the most remote areas across the globe. Additionally, Trimo offers bespoke, reinforced modular solutions that keep occupants safe even in some of the most dangerous and demanding locations.

Military sectors require innovative solutions and often specialized buildings. Trimo's modular units are highly adaptable and customizable, which allows clients to

design bespoke, cost-effective solutions with almost infinite possibilities that also utilize space efficiently and offer its occupants the highest sense of safety and wellbeing.

- Robust and durable
- Easy to transport and relocate: flat-packed or fully factory assembled, handling by any ISO means
- Fire resistance walls (EI 30 – EI 240)
- Reinforced walls and roofs
- Easy to maintain
- Easy cleaning wall and floor coverings
- Flexible in dimensions

## EXPEDITIONARY KITCHENS & DINING ROOMS

Containers are clad in stainless steel to meet strictest hygiene requirements. Kitchen's equipment is designed to make the most efficient use of the space available. Our range of mobile kitchens consist of either single units or several different types of special containers and shelters to offer large capacity expeditionary kitchens.

## MEDICAL FACILITIES

Single units can be used for operating rooms, emergency tactical units and pharmacy, laboratory or doctors' offices. Mobile medical units can be joined together to form a larger hospital.

## LATRINES & SHOWERS

Our goal is to construct a product and select the right material for users where operational and hygienic conditions are in focus. The sanitary containers can have different configurations and sizes, depends on specific requirements.

## LAUNDRY FACILITIES

The containerized laundry unit combines the combat-proven durability and support people in the field in terms of laundry. The units are providing fully laundered articles that are clean and free from bacteria and infestation to support deployed operations worldwide.

## MILITARY & GOVERNMENT ACCOMMODATION

Trimo's modular solutions are used extensively as temporary or permanent, easy to set up and efficient solution for military and government accommodation.

## REINFORCED MODULAR SOLUTIONS

Trimo's Reinforced Modular Units are designed for an effective protection against mortar and other high angle artillery fire. The construction comprises a reinforced primary roof which can bear a 50 cm thick protective layer of sand bags. A secondary roof is added to intercept and detonate the grenades. Another option is a protection of primary walls with ballistic steel sheets or blast proof enhanced container units.

## COMPANY PROFILE

With 30 years of experience, **Trimo** leads the way in providing modular space solutions, and has to-date manufactured more than 100,000 units, supply them to a wide variety of market sectors world-wide.
